

TABLE OF CONTENTS

HOW THIS MANUAL CAN BE USED	1
HOW TO PRESENT ELEMENTARY NOMENCLATURE MATERIAL	3
Activity 1: Matching Picture and Label Cards	4
Activity 2: Matching Picture, Label and Definition Cards	6
INTRODUCTION	8
MAPS AND MAPPING	10
Introduction	10
First Knowledge of the Earth: Review	12
Background Information	12
Activity 1: Examining a Land and Water Globe	13
Activity 2: Studying a Colored Continent Globe	14
Activity 3: Studying a Standard Globe	15
World Map	16
Background Information	16
Activity 1: Changing a Globe to a Map	17
Activity 2: Changing a Map to a Globe	19
Latitude and Longitude	20
Background Information	20
Activity 1: Locating and Using Lines of Latitude and Longitude	22
Activity 2: Locating and Using the Prime Meridian and Lines of Longitude	24
Compass and Directions	25
Background Information	25
Activity 1: Using a Compass and Practicing Directions	26
Activity 2: Practicing More Directions	28
Atlas	29
Background Information	29
Activity 1: Reading an Atlas	30
THE SUN AND EARTH	31
Introduction	31

The Solar System	32
Background Information	32
Activity 1: Setting Up a Model of the Solar System	37
Activity 2: Building a Solar System in a Box	39
Earth's Cycles	40
Background Information	40
Activity 1: Studying the Earth's Rotation and Orbit	41
Time Zones	43
Background Information	43
Activity 1: Investigating Day and Night	44
Activity 2: Calculating Dates and Times	46
EARTH'S ATMOSPHERE	48
Introduction	48
Weather	49
Background Information	49
Activity 1: Recording the Weather	50
Layers of the Atmosphere	52
Background Information	52
Activity 1: Identifying the Atmosphere's Layers	54
Air Pressure	55
Background Information	55
Activity 1: Linking Gravity and Matter with Air Pressure	56
The Water Cycle	58
Background Information	58
Activity 1: Observing How Evaporation Works	60
Activity 2: Making Rain in a Jar	62
Clouds	64
Background Information	64
Activity 1: Displaying Examples of the Basic Types of Clouds	65
Wind	66
Background Information	66
Activity 1: Identifying Different Types of Wind	68
Rainbows	69
Background Information	69
Activity 1: Making Rainbows	70
Climate	71
Background Information	71
Activity 1: Studying the Three Main Climatic Zones	73

EARTH'S HYDROSPHERE	.75
Introduction	.75
Earth's Water Features	.75
Background Information	.75
Activity 1: Studying the Hydrosphere	.77
Oceans	.78
Background Information	.78
Activity 1: Studying Oceans as Part of the Water Cycle	.80
Activity 2: Studying Marine Life	.81
Activity 3: Appreciating Oceans' Importance to Life on Earth	.82
Seas	.84
Background Information	.84
Activity 1: Distinguishing Between Seas and Oceans	.85
Glaciers And Icebergs	.86
Background Information	.86
Activity 1: Making a Model Glacier	.88
Activity 2: Making a Model Iceberg	.90
Rivers and Streams	.92
Background Information	.92
Activity 1: Creating Rivers and Streams	.94
Lakes and Ponds	.96
Background Information	.96
Activity 1: Making a Model Lake	.98
Wetlands	.100
Background Information	.100
Activity 1: Showing How a Wetland Filters Water	.102
EARTH'S LITHOSPHERE	.104
Introduction	.104
Earth's Layers	.104
Background Information	.104
Activity 1: Making a Model of the Earth's Layers	.106
Continents	.108
Background Information	.108
Activity 1: Identifying Continents and Their Features	.110

Islands	111
Background Information	111
Activity 1: Making Models of Islands	113
Coastlines	115
Background Information	115
Activity 1: Finding Examples of Coastlines	118
Mountains	119
Background Information	119
Activity 1: Comparing Types of Mountains	121
Activity 2: Making a Model of a Fold Mountain	123
Plains	124
Background Information	124
Activity 1: Studying Plains	125
Valleys	126
Background Information	126
Activity 1: Comparing Different Types of Valleys	128
Rocks and Minerals	129
Background Information	129
Activity 1: Identifying Types of Rocks	132
Activity 2: Studying Minerals	134
Recipe for Modeling Dough	136
SCIENCE EXPERIMENTS	137
Experiment 1: Making a Model Volcano	139
Experiment 2: Taking a Core Sample	141
Experiment 3: Shifting Continents	143
Experiment 4: Comparing Sun and Shade Temperatures	145
Experiment 5: Forming Dunes with Wind	147
Experiment 6: Making a Tornado in a Bottle	149
Experiment 7: Detecting Changes in Air Pressure	151
Experiment 8: Changing Shapes Through Pressure	153
Experiment 9: Making a Fossil	155
Experiment 10: Making Stalactites and Stalagmites	157
Experiment 11: Creating a Geyser Gush	159
RESOURCES	161
GLOSSARY	164
