

# TABLE OF CONTENTS

|                                                                                   |    |
|-----------------------------------------------------------------------------------|----|
| HOW THIS MANUAL CAN BE USED .....                                                 | 1  |
| HOW TO PRESENT ELEMENTARY NOMENCLATURE MATERIAL .....                             | 3  |
| Activity 1: Matching Picture and Label Cards .....                                | 4  |
| Activity 2: Matching Picture, Label and Definition Cards .....                    | 5  |
| INTRODUCTION .....                                                                | 7  |
| BASIC OVERVIEW .....                                                              | 10 |
| Introduction .....                                                                | 10 |
| Living Things .....                                                               | 11 |
| Background Information .....                                                      | 11 |
| Activity 1: Distinguishing Between Living and Non-Living .....                    | 16 |
| Activity 2: Identifying What Makes Plants and Animals Organisms .....             | 18 |
| Activity 3: Discovering the Basic Differences Between<br>Plants and Animals ..... | 20 |
| Animal Study .....                                                                | 22 |
| Background Information .....                                                      | 22 |
| Domesticated Animals .....                                                        | 22 |
| Activity 1: Identifying and Naming Domesticated Animals .....                     | 24 |
| Aquatic Animals .....                                                             | 26 |
| Activity 1: Identifying and Naming Common Aquatic Animals .....                   | 28 |
| Forest Animals .....                                                              | 30 |
| Activity 1: Identifying and Naming Common Forest Animals .....                    | 33 |
| Birds .....                                                                       | 35 |
| Activity 1: Identifying and Naming Types of Birds .....                           | 38 |
| Wild Animals in the World .....                                                   | 40 |
| Activity 1: Identifying and Naming Wild Animals from<br>Around the World .....    | 42 |
| Animal Young .....                                                                | 44 |
| Activity 1: Matching the Names of Young and Adult Animals .....                   | 46 |

|                                                                             |            |
|-----------------------------------------------------------------------------|------------|
| Activity 2: Investigating How Some Young Animals Are Born or Hatched .....  | 48         |
| <b>CLASSIFICATION AND ANATOMY .....</b>                                     | <b>50</b>  |
| Introduction .....                                                          | 50         |
| Classification Overview .....                                               | 51         |
| Background Information .....                                                | 51         |
| Activity 1: Examining a Classification Chart .....                          | 56         |
| Activity 2: Practicing Basic Classification .....                           | 58         |
| <b>Anatomy of Invertebrates .....</b>                                       | <b>61</b>  |
| Background Information .....                                                | 61         |
| Anatomy of an Insect: Class Insecta .....                                   | 61         |
| Activity 1: Identifying and Naming the Parts of an Insect (Butterfly) ..... | 64         |
| <b>Anatomy of a Spider: Class Arachnida .....</b>                           | <b>66</b>  |
| Activity 1: Identifying and Naming the Parts of an Arachnid .....           | 69         |
| <b>Anatomy of a Crab: Sub-Phylum Crustacea, Class Malacostraca .....</b>    | <b>71</b>  |
| Activity 1: Identifying and Naming the Parts of a Crustacean .....          | 74         |
| <b>Anatomy of a Mollusk: Phylum Mollusca .....</b>                          | <b>76</b>  |
| Activity 1: Identifying and Naming the Parts of a Mollusk .....             | 78         |
| <b>Anatomy of Vertebrates .....</b>                                         | <b>80</b>  |
| Background Information .....                                                | 80         |
| Anatomy of a Fish: Class Osteichthyes .....                                 | 80         |
| Activity 1: Identifying and Naming the Parts of a Fish .....                | 84         |
| <b>Anatomy of a Frog: Class Amphibia .....</b>                              | <b>86</b>  |
| Activity 1: Identifying and Naming the Parts of a Frog .....                | 90         |
| <b>Anatomy of a Tortoise: Class Reptilia .....</b>                          | <b>92</b>  |
| Activity 1: Identifying and Naming the Parts of a Tortoise .....            | 95         |
| <b>Anatomy of a Bird: Class Aves .....</b>                                  | <b>97</b>  |
| Activity 1: Identifying and Naming the Parts of a Bird .....                | 101        |
| Activity 2: Studying Feathers .....                                         | 103        |
| <b>Anatomy of a Guinea Pig: Class Mammalia .....</b>                        | <b>104</b> |
| Activity 1: Identifying and Naming the Parts of a Guinea Pig .....          | 107        |
| <b>Physiology .....</b>                                                     | <b>109</b> |
| Background Information .....                                                | 109        |
| Organ Systems .....                                                         | 109        |
| Activity 1: Studying Organs of the Human Body .....                         | 112        |

|                                                        |     |
|--------------------------------------------------------|-----|
| <b>Reproduction</b>                                    | 113 |
| Background Information                                 | 113 |
| Sexual Reproduction                                    | 113 |
| Activity 1: Studying the Life Cycle of the Butterfly   | 118 |
| Activity 2: Studying Courtship Behavior in Animals     | 120 |
| <b>Asexual Reproduction</b>                            | 121 |
| Activity 1: Making Models of Reproduction by Fission   | 122 |
| <br><b>ADAPTATION</b>                                  | 124 |
| <b>Introduction</b>                                    | 124 |
| <b>Basic Needs</b>                                     | 125 |
| Background Information                                 | 125 |
| Food Chains                                            | 125 |
| Activity 1: Creating a Simple Food Chain               | 129 |
| Activity 2: Investigating a Food Chain in More Detail  | 131 |
| <b>Animal Homes</b>                                    | 133 |
| Activity 1: Identifying and Naming Animal Homes        | 136 |
| Activity 2 : Taking a Field Trip to Find Animal Homes  | 138 |
| <b>Adapting to Different Climates</b>                  | 140 |
| Background Information                                 | 140 |
| How Animals Survive Cold Winters                       | 140 |
| Activity 1: Acting Out How Animals Survive Winter      | 143 |
| <b>How Animals Adapt to the Arctic Environment</b>     | 145 |
| Activity 1: Studying Examples of Arctic Animals        | 149 |
| Activity 2: Investigating Ways Arctic Animals Adapt    | 151 |
| <b>How Animals Adapt to Grassland Environments</b>     | 153 |
| Activity 1: Studying Examples of Grassland Animals     | 157 |
| Activity 2: Investigating Ways Grassland Animals Adapt | 159 |
| <b>How Animals Adapt to Hot Desert Environments</b>    | 161 |
| Activity 1: Studying Examples of Desert Animals        | 164 |
| Activity 2: Investigating Ways Desert Animals Adapt    | 166 |
| <b>Animal Defense</b>                                  | 168 |
| Background Information                                 | 168 |
| Activity 1: Acting Out How Animals Defend Themselves   | 172 |

|                                                                                 |     |
|---------------------------------------------------------------------------------|-----|
| Relationship of Humans with Animals .....                                       | 174 |
| Background Information .....                                                    | 174 |
| Uses for Animals .....                                                          | 174 |
| Activity 1: Identifying Animals That Humans Eat .....                           | 179 |
| Activity 2: Investigating Other Uses for Animals .....                          | 181 |
| Animal Care .....                                                               | 183 |
| Activity 1: Exploring the Tasks Involved in Caring<br>for Captive Animals ..... | 187 |
| Animal Stories .....                                                            | 190 |
| Activity 1: Writing Descriptive Animal Stories .....                            | 193 |
| RESOURCES .....                                                                 | 195 |
| GLOSSARY .....                                                                  | 204 |
